HEAR WITHOUT EARS

Police and Detectives Are Using Lip Reading In Place of the Dictagraph

Thousands of deaf people are today throwing away all hearing devices and enjoying all conversation. This method is easily and quickly acquired through our system. Absolutely the only thing of its kind in the country. Our proposition is entirely original. We guarantee results, it will amaze you. Cost is trifling. See what New International Encyclopaedia says on Lip Reading

Hundreds of people with normal hearing are taking Lip Reading for the many additional benefits gained. You can understand what the actors are saying in the moving pictures. You can understand what people are saying just as far away as you can see them. The eye understands beyond the range of hearing. Send no money, but mention this paper and state whether or not you are deaf.
